RE: Lighting Letter of Support for Health Canada Application under *Cannabis Regulations*

To Whom It May Concern:
c/o Zoning and Planning Department,

This letter is to inform you that Mrs. Lisa Thorn has a site located at 46 Bruce County Rd 17, Arran-Elderslie, ON N0H 2N0 ("site address"), and intends to submit an application to Health Canada to obtain a cannabis licence for classes Micro Cultivation and Micro Processing under the *Cannabis Act* (S.C. 2018, c. 16) and the *Cannabis Regulations* (SOR/2018-144).

CannDelta confirms that the proposed facility is a completely self-contained production site which does not produce any exterior light pollution other than the light generated from general office lighting from the single exterior window. If needed, this office light can be mitigated with blinds. Exterior lighting will be limited to motion-sensitive spot lighting on the building envelope near entry and exit points which would activate only in the proximity of an individual approaching an exterior door. At night, after work hours, all the exterior and office lights will be turned off at the site and no other light would be produced from the facility. Lighting associated with cultivation activities at the site must operate on a 24-hour cycle. However, the areas where cultivation lighting is present are in interior operation rooms which are separated by several layers of accessible rooms between the exterior. The cultivation areas are strictly environmentally controlled rooms where no light may enter or escape. No exterior light pollution would be produced based on the facility design.

Should you have any questions, please feel free to contact me or CannDelta directly, c/o Dr. Sherry Boodram at sherry@canndelta.com or at (416) 613-8569 ext. 102.

Sincerely,

Dr. Sherry Boodram, PhD
