

RISK MANAGEMENT SERVICES - STATUS REPORT

REPORT DATE	REPORTING PERIOD	MUNICIPALITY
December 18, 2025	2024	Municipality of Arran-Elderslie

STATUS SUMMARY

This project began with initial letters sent to property owners on March 30, 2016, requesting owners contact the Risk Management Office to discuss potential threats under the drinking water source protection program. As landowners contacted the office their properties were reviewed for threats assigned based on the approved Source Protection Plan. For more complex properties or where information was lacking, site visits were scheduled to allow for a more detailed evaluation of the property. The negotiation of Risk Management Plans began in 2017, with required renewals being completed within the 5 years from their implementation date. New landowners/tenants on properties were contacted and through site visits and meetings, plans were renegotiated in cooperation with the landowners to address the identified threats along with any changes that may have taken place on the property over the past 5 years. Many properties also require annual reporting requirements and will be inspected prior to their renewal dates to ensure ongoing compliance with the agreed upon plans.

KEY MILESTONES

The following key milestones were addressed in 2024:

- Continued maintenance and creation of records in the Property Tracking System.
- On-going review and assistance with Official Plan and Zoning By-Law amendments for municipalities within the Source Protection Area.
- Risk Management Official annual reporting requirements under S.65 (Annual reporting completed by the appointed Risk Management Official for each municipality and submitted to the respective Source Protection Authority).
- Completion of 2024 annual reports to municipalities on Risk Management Services provided.
